

Dear Friends,

I am excited to inform you that my nephew, Paul J. Fornetti, D.D.S. will be joining my practice in January of 2011. No, I am not retiring. Beginning January, I will be available on Tuesdays and Fridays. With the addition of Dr. Paul, we will be able to remain open more often, allowing us to be more available to you and treat your needs in a timely and effective manner.

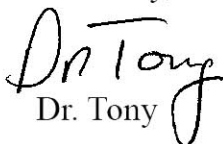

Dr. Paul has been practicing with his brother, Dr. Ted A. Fornetti since July of 2006. He graduated from Iron Mountain High School in 1998 and went on to earn his bachelor's degree in biology from the Lyman Briggs School of Science at Michigan State University in 2002. Following in the footsteps of his family, Dr. Paul then attended Marquette University School of Dentistry in Milwaukee, Wisconsin and graduated in May of 2006. In addition to treating patients in the Milwaukee area, he also spent time at community health clinics in Eau Claire, Appleton, and Ladysmith, treating patients with limited access to dental care. Dr. Paul received training in endodontics, periodontics, prosthodontics, oral surgery, restorative, and implant dentistry.

Since receiving his doctoral degree and entering private practice, Dr. Paul has continued his studies of endodontics under Dr. L. Stephen Buchanan at Dental Education Laboratories in Santa Barbara, California, full mouth reconstruction under Dr. Jim Downs at Arrowhead Dental Laboratories in Sandy, Utah, as well as courses in pain management, restorative materials and techniques, pharmacology, temporomandibular joint dysfunction, and many more.

You know that patients come first in this practice. We stand or fall based on our ability to understand your needs and meet them. We look forward to having Dr. Paul with us to help continue the tradition of putting your concerns above everything else and providing you with treatment of the highest quality; comfortable, long lasting, and esthetically pleasing.

This is an exciting time for all of us, we look forward to giving you a chance to meet Dr. Paul personally. If you have any questions, please feel free to call us at (906) 774-2577.

Sincerely,

  
Dr. Tony
